MICHELIN XZR

RADIAL TIRE

INNOVATE FOR MORE

AIRPORT GROUND SUPPORT SEGMENT

MICHELIN

MICHELIN XZR

1 SPEED

Capable of reaching up to 50 km/h [1]
The radial technology, tread pattern and specific rubber compounds allows for higher speeds.

2 SAFETY

Exceptional grip for short distance braking
The radial structure and multi-block pattern provides maximal ground footprint.

3 ROBUSTNESS

Limit machine downtime
Radial tubeless construction to prevent punctures and damages.

TIRE CHARACTERISTICS

ADDITIONAL INFORMATION

VEHICLE EQUIPMENT

> The XZR tire is the solution for baggage tractors, urban machines and other high intensity forklift applications. Customers can expect an exceptional total value of ownership.
