

COMPACT LINE TYRES **RANGE 2019-20**

November 2019 Edition

MICHELIN BIBLOAD HARD SURFACE

- Outstanding durability & ride quality
- Metal braicing plies for puncture resistance
- Excellent stability on slopes & same quality comfort as XMCL

MICHELIN XM 47

- Great on-road comfort and good grip in off-road conditions
- Excellent road handling up to 56 mph on roads
- Proven casing endurance
- Can be fitted to high speed tractors such as Unimogs and Fastracs

MICHELIN XMCL

- Exceptionally resistant to cuts & excellent traction even in wet & difficult positions
- Reinforced sidewall & metal braicing plies for puncture resistance
- Effectiveness on soft ground

MICHELIN XF

- Radial steel construction to increase tyre life and traction
- Efficient on all surfaces
- Designed to increase tyre life, reduce maintenance costs and downtime

MICHELIN CROSSGRIP

- A multi-purpose tyre for use on the road, grass and snow
- High load capacity
- Non-directional tread for excellent precision in forward and reverse gear

MICHELIN X TWEEL

- The airless radial tyre and wheel assembly
- No risk and costly downtime associated
- Superb productivity

MICHELIN BIBSTEEL HARD SURFACE

- Reinforced radial construction / great traction / minimal downtime
- 100% steel construction for puncture resistance
- Proven casing endurance

MICHELIN POWER CL

- Cross ply tyre resistant to cuts and great stability
- 6 and 8 ply rated
- Massive lugs

MICHELIN BIBSTEEL ALL TERRAIN

- Reinforced radial construction / great traction / minimal downtime
- 100% steel construction for puncture resistance
- A tyre for skid steers providing excellent traction on soft ground

MICHELIN POWER DIGGER

- Cross ply tyre resistant to cuts and great stability
- +57% thicker sidewall*
- Improved wear resistance

* Versus main competitor Bias tyre.
