

MICHELIN XKD1

The E4 transport tyre for rigid dump trucks

Robustness

**Protection against shock,
cuts and damage**

Reduced operationg costs

MICHELIN XKD1

The E4 transport tyre for rigid dump trucks

SIZE	TREAD DEPTH	
	mm	32 rd inch
14.00 R 24 TT ***	37	46.6
18.00 R 25 TL **	47	59.2

➤ ROBUSTNESS

- Substantial tread and damage resistance on abrasive surfaces

➤ PROTECTION AGAINST SHOCK, CUTS AND DAMAGE

- Sidewalls protected by a reinforcing band at the junction between sidewall and tread
- Massive, robust tread (E4 tyre)

➤ REDUCED OPERATING COSTS

- Good life at high speeds
- Extensive choice of tread rubber to suit all applications
- Resists heat generation

E4 E : transport tyre
4 : tread depth

REPAIRABILITY AND RETREADABILITY MAXIMIZED THANKS TO THE EXTREME RELIABILITY OF THE CASING (##)

Measuring point location

(##) provided that the worn tyre answers criteria of retreading and/or repair.

BENEFITS OF THE MICHELIN® RADIAL TECHNIQUE

- longer tyre life
- better traction on all types of surface
- lower fuel consumption
- improved comfort
- increased resistance to punctures / flats
- increased heat resistance
