# COUNT ON US WHEN IT MATTERS MOST

## EXTREME DURABILITY

Our Most Durable Heavy Duty Light Commercial Truck Tire – Professional-Grade Construction including CurbGard™ sidewall protectors that resist curb scrubbing in urban environments for improved sidewall durability.

## IMPROVED WEAR <sup>(1)</sup>

Lasts 10% to 19% longer under heavy loads than three leading competitive commercial tires. <sup>(1)</sup> The StabiliBlok™ design provides wider and longer tread blocks, to resist extreme torque while providing cool operating temperatures under full load at high speed.

## EXCELLENT WET TRACTION <sup>(2,3)</sup>

Offers shorter wet stopping distances and better snow traction than leading competitive long-warranty tires. SipeLock™ provides hundreds of biting edges for improved wet and snow traction without sacrificing tread block stability.

## SNOW TRACTION

All 16 sizes meet the USTMA (U.S. Tire Manufacturers Association) snow traction performance requirements. Meets the Tire and Rubber Association of Canada (TRAC) requirements for severe snow traction.

- (1) Based on a treadwear test using tires in size LT265/70R17 121/118R on 2018 Ford F250 pickup trucks, loaded to 9800 lbs / 4,445 kilograms, versus the following competitors. Actual on-road results may vary. Average projected mileage to wearout: Michelin Agilis® CrossClimate®: 24,500 miles / 39,429 kilometers, Bridgestone® Duravis™ M700 HD: 20,600 miles / 33,153 kilometers, Firestone® Transforce™ AT2: 22,000 miles / 35,406 kilometers, and Firestone® Transforce™ HT: 19,800 miles = 31,865 kilometers.
- (2) Based on internal wet braking tests from 50 mph / 80 km/h using tires in size LT265/70R17 121/118R on a 2018 Ford F-250 versus the following competitors. Actual on-road results may vary. Average distance to stop: Michelin Agilis® CrossClimate®: 147.5 ft / 45m, Bridgestone® Duravis™ M700 HD: 151.6 ft / 46m, Firestone® Transforce™ AT2: 158.0 ft / 48m, and Firestone® Transforce™ HT: 169.3 ft / 52m.
- (3) Based on internal snow handling tests using tires in size LT265/70R17 121/118R on a 2018 Ford F-250 versus the following competitors. Actual on-road results may vary. Average acceleration performance (%): Michelin Agilis® CrossClimate®: 100%, Bridgestone® Duravis™ M700 HD: 73%, Firestone® Transforce™ AT2: 91%, and Firestone® Transforce™ HT: 94%.

# CHOOSE THE MICHELIN® AGILIS® CROSSCLIMATE® TIRE FOR:

- Durability over extended mileage
- Towing and moving heavy loads with confidence
- Protection from impact, punctures and aggression
- All-season tires for rough work conditions

## EVERYONE HAS A STORY

"Finding out that the product not only was meeting the mileage and cost issue, but it was performing from a traction standpoint. Also, the ride and comfort feedback from the drivers using the product was positive."

**KRISTOPHER G. BACHMANN**, Branch Manager  
*Service Tire Truck Centers (STTC) Syracuse*

"Transporting people we want to make sure those people are in a safe vehicle and these tires were just great."

**DAVID J. BUTLER**, President  
*TLC Ambulance Services*

## FREQUENTLY ASKED QUESTION:

What are the main differences between the Michelin AGILIS® CROSSCLIMATE® tire and the Michelin Defender® LTX® M/S tire? When should the Michelin AGILIS® CROSSCLIMATE® tire be recommended vs. the Michelin Defender® LTX® tire?

**A:** The Michelin AGILIS® CROSSCLIMATE® tire is **optimized for commercial usage**—which means usage by businesses carrying heavy loads, high-duty cycles, frequent towing, and constant or near-constant driving. The Michelin Defender® LTX® M/S tire is **optimized for personal usage**, including daily commuting, running errands, occasional trips to the home improvement store, tailgating and camping. Varying usage calls for different recommendations.
