

MICHELIN XDR 3

LONG LASTING INNOVATIONS!

Exceptional tire life,
increased by a minimum
of **+10 %**⁽¹⁾⁽²⁾

MICHELIN

A better way forward

(1) Compared to MICHELIN XDR 2, all sizes, average performance by mine site. Projected improvement in tire life based on field performance in customer mine sites over 29 months of the MICHELIN XDR 2, MICHELIN XDR 250 and MICHELIN XP 57, 40.00 R 57 and 53/80 R 63, tires that included individual design improvements incorporated into the MICHELIN XDR 3. (2) Without any compromise on TKPH/TMPH.

MICHELIN XDR 3

LONG LASTING INNOVATIONS!

EXCEPTIONAL TIRE LIFE, INCREASED BY A MINIMUM OF +10%⁽¹⁾⁽²⁾

A TECHNOLOGICAL BREAKTHROUGH: 3 MAJOR INNOVATIONS

A NEW TREAD PATTERN

- Interlocking blocks of rubber on the shoulder, creating a more rigid tread pattern in corners⁽³⁾
- Better load distribution across the contact patch resulting in lower contact pressure⁽³⁾

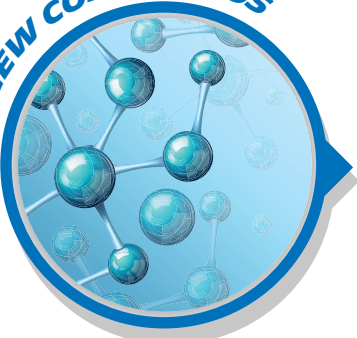

REDUCING THE WEAR RATE

- Improved heat dissipation⁽³⁾

-8°C
IN THE TREAD⁽³⁾

BETTER ENDURANCE

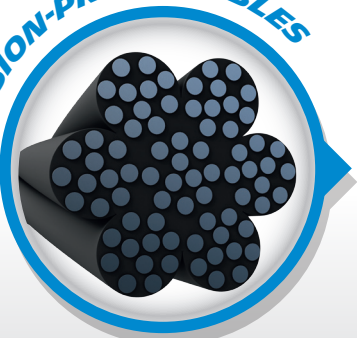

NEW COMPOUNDS

- 4 new compounds **MB₄** **MB** **MC₄** **MC**
- Exclusive new process of mixing
- Much more homogeneous mix with a superior level of carbon black dispersion

SLOWER WEAR RATE

CORROSION-PROOF CABLES

- Steel encapsulated by rubber prevents corrosion spread

ROBUSTNESS

- Higher steel resistance inside the cable

10% STRONGER⁽³⁾

(1) Compared to MICHELIN XDR 2, all sizes, average performance by mine site. Projected improvement in tire life based on field performance in customer mine sites over 29 months of the MICHELIN XDR 2, MICHELIN XDR 250 and MICHELIN XP 57, 40.00 R 57 and 53/80 R 63, tires that included individual design improvements incorporated into the MICHELIN XDR 3. - (2) Without any compromise on TKPH/TMPH. - (3) vs. MICHELIN XDR 2, all sizes.
