Recommended Acceptable

THE MICHELIN XDS® 2 (19.5") TIRE

The drive axle radial for year round traction, optimized for winter conditions and limited all-position service in regional and on/off road applications.

Outstanding traction in most weather conditions, especially on wet and slippery surfaces from Michelin's patented Matrix sipe technology.

Extra bite, especially in deep snow from full-width patented Matrix sipes that interlock to enhance block stability under torque.

Maximized stone rejection plus outstanding mud and snow evacuation with deep, wide zigzag grooves with variable pitch walls and groove bottom protectors.

3 dimensional Matrix sipes lock together under compression for the stability of a solid block yet deliver over 700 biting edges to help provide excellent levels of traction throughout the contact patch area.

Traction in mud and deep snow with open shoulder grooves and aggressive zigzag center grooves.

Reduced downtime from sidewall injuries with extra thick sidewalls incorporating special scallops and curb guard features.

Long casing life and exceptional retreadability from robust 3 full width steel belt design.

Size	Load Range	Catalog Number	Tread Depth		Max. Speed (+)		Loaded Radius		Overall Diameter		Overall Width (‡)		Approved Wheels (Measuring wheel listed first.)	Min. Dual Spacing (‡)		Revs Per Mile	Max. Load and Pressure Single				Max. Load and Pressure Dual			
			32nds	mm	mph	kph	in.	mm	in.	mm	in.	mm		in.	mm		lbs.	psi	kg.	kPa	lbs.	psi	kg.	kPa
225/70R19.5	G	24975	18	462	87	140	15.2	387	32.3	821	9.2	234	6.75, 6.00	10.0	254	638	3970	110	1800	760	3750	110	1700	760
245/70R19.5	H	23134	19	481	75	120	15.7	400	33.6	854	9.7	247	6.75, 7.50	10.7	272	615	4940	120	2240	830	4675	120	2120	830

Note: Wheel listed first is the measuring wheel.

(*) Exceeding the lawful speed limit is neither recommended nor endorsed.

(‡) Overall widths will change 0.1 inch (2.5 mm) for each 1/4 inch change in wheel width. Minimum dual spacing should be adjusted accordingly.

(1) 3PMSF (3 Peak Mountain Snow Flake) is from European R117 regulation. It has no regulatory Truck Tire reference in N.A. The tire must score at least 25% better in deep snow traction than the Standard Reference Test Tire on an ECE certified ISO test procedure. 3PMSF always appears with "M+S" mark

Michelin tires and tubes are subject to a continuous development program. Michelin North America, Inc. reserves the right to change product specifications at any time without notice or obligations. MNA, Inc. continually updates its product information to reflect any changes in Industry Standards. Printed material may not reflect the current Load and Inflation information. Please visit business.michelinman.com for the latest product information. The actual load and inflation pressure used must not exceed the wheel manufacturer's maximum conditions. Never exceed a wheel manufacturer's limits without permission from the component manufacturer.
