

# WHAT ABOUT VECTO?

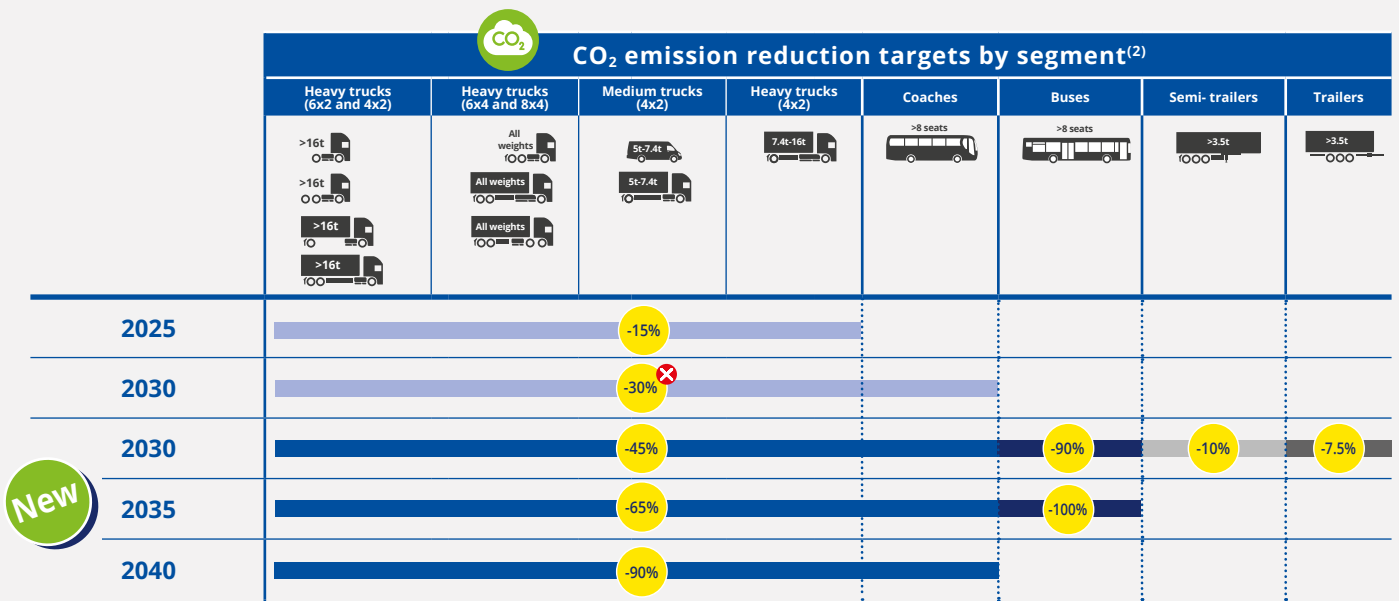

The aim of European regulation for Heavy-duty vehicles is to reduce CO<sub>2</sub> emissions and help the road transport sector to combat climate change. Heavy-duty Vehicles produce over 6% of total EU green house gas emissions<sup>(1)</sup>.

- > VECTO is the new simulation tool that has been developed by the European Commission and is used for determining CO<sub>2</sub> emissions and Fuel Consumption from Heavy Duty Vehicles.
- > All new vehicles registered in the EU must be accompanied by a VECTO certificate that is based on data entered by the manufacturer when leaving the factory.

## WHO IS CONCERNED?

### THE EU REVISES ITS TARGETS FOR REDUCING CO<sub>2</sub> EMISSIONS UPWARDS

(1) Source: European Environment Agency (EEA).

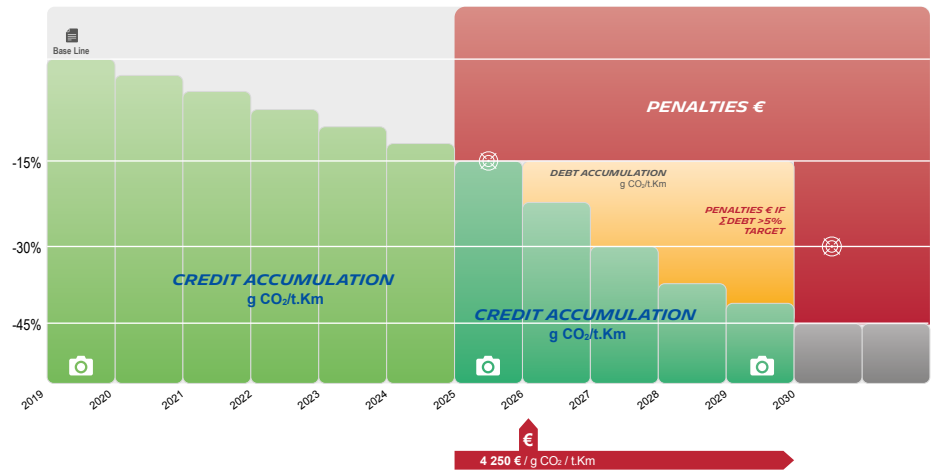

(2) With a base line for Trucks (2019) and for Coaches, Buses, Semi-trailers & Trailers (2024) and considering energy efficiency targets for trailers & semi-trailers.

# WHAT IMPACT ON OE MANUFACTURERS AND FLEETS?

## VECTO'S GOAL IS TO BOOST A CO<sub>2</sub> EMISSIONS REDUCTION BY CHALLENGING OE MANUFACTURERS

> From July 2025, manufacturers will be subject to penalties if their vehicles do not comply with the VECTO standard and the severity will increase from 2025. The amount of the penalty will be determined by their level of CO<sub>2</sub> emissions.

CO<sub>2</sub> emission and fuel consumption are strongly linked. Tyre rolling resistance is one of the major parameters that impact the fuel consumption and so CO<sub>2</sub> emission during usage phase.

> Road toll rates are based on the VECTO classification. EU Member States are required to set different road tax rates according to a truck's CO<sub>2</sub> emission class, as determined by the VECTO classification. As a result, tax/toll rates will rise considerably, particularly for diesel and gas-powered trucks.

## HOW CAN MICHELIN SUPPORT YOU?

### SPECIFY MICHELIN FOR ALL YOUR NEW VEHICLES

Whether it's long distance, national & regional road, construction site or passenger transport, choosing the right tyres for your Original Equipment needs means enjoying their full potential.

## BENEFIT FROM MICHELIN TOTAL PERFORMANCE
