# Winter Truck Driving Safety Checklist

Before your next trip, take a few minutes to prepare for winter road conditions.

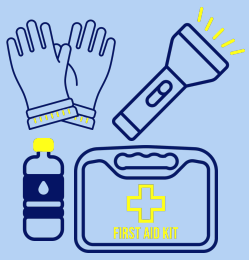

## Inspect Your Truck

- [ ] Check tire condition, inflation pressure & tread depth
- [ ] Inspect antifreeze, washer fluid & the cooling system
- [ ] Make sure wipers are in good condition & working properly
- [ ] Clear snow and ice from lights, mirrors, windows & the license plate

## Plan Your Route

- [ ] Check weather forecasts and road advisories before you go
- [ ] Review tire chain and traction requirements along your route
- [ ] Identify safe stopping locations in case you need to pull over
- [ ] Check fuel levels and keep your tank at least half full when possible

## Pack Your Winter Essentials

- [ ] Bring warm clothing, gloves and waterproof boots
- [ ] Pack food, drinking water and any necessary medications
- [ ] Include a flashlight, high-visibility vest and a first-aid kit
- [ ] Carry a shovel, traction material (such as sand or cat litter) and extra blankets

## Drive Safely

- [ ] Increase your following distance and reduce your speed
- [ ] Watch for black ice and changing road conditions
- [ ] Avoid sudden braking, sharp turns and quick acceleration
- [ ] Take regular breaks, stay alert and stop driving if conditions become unsafe

***No delivery is worth risking your safety.***
