RALLY MEXICO FREQUENTLY SERVES AS A MARKER FOR THE FIRST PART OF THE SEASON

"As the first gravel round of the season, Rally Mexico is always eagerly awaited by the teams and drivers. It frequently serves as a marker for the first part of the season and gives an idea of the respective strengths of the different contenders. Tyre wear is rarely an issue but the second passes can be quite complex if the weather is hot. Friday's El Chocolate stage promises to be a big challenge once again. It exceeds 30 kilometres in length, climbs to an altitude of more than 2,650 metres and features all the different types of road and conditions competitors come across in Mexico."

RALLY MEXICO TRIVIA

Rally Mexico has been the WRC's opening gravel round since 2004

Rally Mexico's stages take place at the highest altitudes visited by the WRC (average: more than 2,000 metres)

Rally Mexico's stages are wide, with a good rhythm, but the phenomenon of 'road sweeping' is significant

Citroën has won eight of the 15 Rally Mexicos to have counted towards the WRC

Rally Mexico was first organised in 1979 when it was known as Rally America

This is the 16th Rally Mexico to count towards the WRC. The 2009 event was not a WRC round

MICHELIN GREEN GUIDE

The MICHELIN Green Guide Mexico is the ideal companion to discover this diverse country, from its pre-Colombian sites and exotic beaches, to its colourful Indian markets, traditional fiestas, colonial towns and tentacular capital.
