

PILOT SPORT A MW1

MULTI-PURPOSE & HIGH-PERFORMANCE

DESIGNED FOR THE RAIN

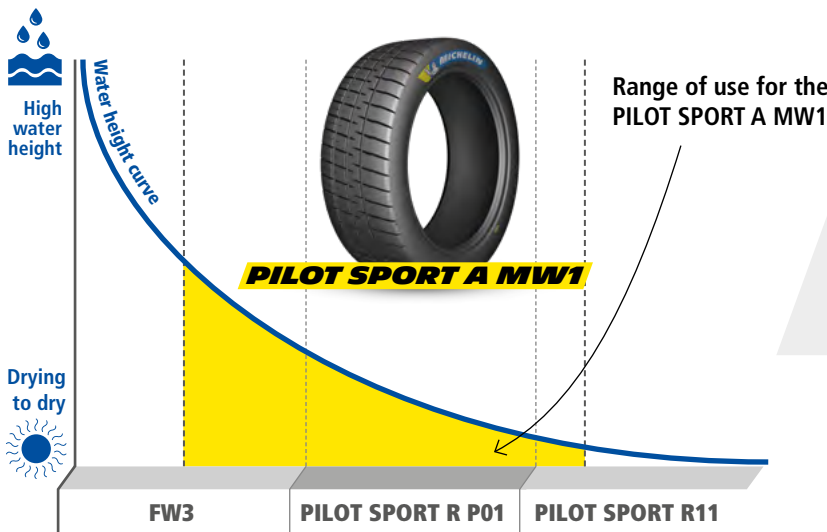

- High water evacuation capacity
- 30% more water evacuation capacity than the Pilot Sport R P01

DEVELOPED TO ADAPT

- Accepts changes in grip
- High performance on wet, damp and drying roads

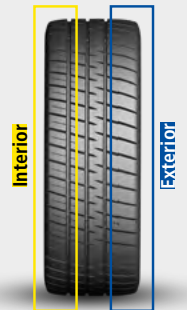

MADE TO REASSURE

- Better reactivity to steering instructions
- Provides better support, laterally and in the braking phase

REMEMBER!

The PILOT SPORT A MW1 is a tyre from the Asphalt rally range.

KNOW THE % OF WEAR IN MY TYRE:

- **1, 2 and 3 visible:** wear <25%
- **2 and 3 visible:** wear between 25% and 50%
- **3 visible:** wear between 50% and 75%
- **Not visible:** wear >75%

A WORD FROM JULIEN VIAL

MICHELIN COMPETITION CLIENT PRODUCT MANAGER

“We have been invested heavily in the rally segment for several years now, and we have undertaken to develop yet more tyres that meet drivers’ needs. What’s more complicated than choosing the right tyre when it’s not really raining, when the road is drying or even when there’s mud? With the PILOT SPORT A MW1 tyre, the choice should be much easier!”

MICHELIN
