

**DELIVERING RACE-WINNING
PACE LAP AFTER LAP!**

MICHELIN POWER PERFORMANCE CUP

Tyres developed for sprint racing

Tyres not approved for road use

Tyre warmers must be used

WARM-UP

The tyre provides the grip needed from the first lap.

- The materials used allow the rubber to warm up quickly.
- It benefits from the latest technologies developed in **MOTOGPT™**.

PERFORMANCE MADE TO LAST

The tyre delivers consistent performance, lap after lap.*

- Consistence achieved thanks to a footprint that is uniform over the various camber phases*.

EASY TO CONTROL

Developed to suit both amateur and experienced riders and all motorbikes.

TREADED VERSION

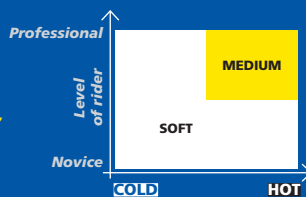

Treaded version of the MICHELIN Power Performance Slick. The tyre is optimized for Supersport 600cc bikes riding in national and international championships.
