

**DELIVERING RACE-WINNING
PACE LAP AFTER LAP!**

MICHELIN POWER PERFORMANCE SLICK

Tyres developed for sprint racing

Tyres not approved for road use

Tyre warmers must be used

WARM-UP

The tyre provides the grip needed from the first lap.

- The materials used allow the rubber to warm up quickly.
- It benefits from the latest technologies developed in **MOTOGP™**.

PERFORMANCE MADE TO LAST

The tyre delivers consistent performance, lap after lap.*

- Consistence achieved thanks to a footprint that is uniform over the various camber phases*.

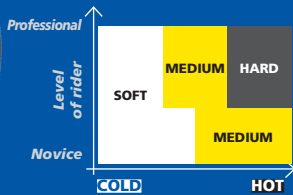

EASY TO CONTROL

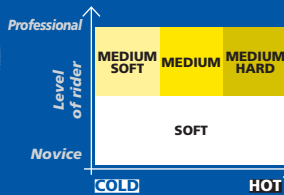

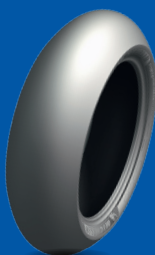

Developed to suit both amateur and experienced riders and all motorbikes.
