**THE ABILITY
OF OUR TIRES TO
QUICKLY REACH
THEIR OPTIMUM
OPERATING
TEMPERATURE WILL
BE AN ADVANTAGE**

Mugello is undoubtedly the most technical circuit on the calendar, and the one where the speeds reached are simply crazy. That's why we are very attentive to the evolution of the race bikes and have scrutinised our tire allocation to assess the possibility of providing a perfect tire package. Our analyses led us to confirm the Soft and Medium tires for the front, but we made changes to the Hard tire. Its tread is the same composition as the Medium, but we modified the internal structure of the tire to provide more stability in the most critical phases of riding, such as heavy braking at very high speeds at the end of the long straight. In addition, the technical configuration of the circuit makes it one of the most challenging in the championship. The Mugello track combines fast corners both uphill and downhill, which generates significant and highly variable loads on the tires. We have therefore selected tires capable of maintaining the balance of the bikes, especially as grip levels are relatively modest due to the ageing asphalt. Finally, as the circuit is located in a wooded area, far from any built-up areas, temperatures can be cool in the morning. The ability of our tires to quickly reach their optimum operating temperature will also be an advantage for this high-speed race weekend.
