**WE THEREFORE  
CHOSE TO CARRY  
OVER EXACTLY  
THE SAME TIRE  
COMBINATION  
FOR 2025**

We come to Portimão with great confidence and high motivation. It is the penultimate round of the season, just before the Valencia finale and, even if the 2025 titles have already been decided, our focus remains absolute.

Portimão is a spectacular, demanding circuit, highly appreciated by riders, but it poses a real technical challenge for tires. It has everything: heavy downhill braking, fast flowing corners, blind acceleration zones, and sections where traction is critical. You need a tire that can do everything and do it consistently, without compromise.

Last year, the allocation we proposed fulfilled its mission perfectly, both in the Tissot Sprint and in the long race. Riders appreciated the confidence offered in the most critical phases, as well as the tire's consistent behaviour from the first to the last lap. We therefore chose to carry over exactly the same tire combination for 2025. Even though the race takes place in autumn this time, our analysis indicates conditions should remain very close to those seen in spring.

## 2025 TIRE REGULATIONS

ALLOCATION PER RACE:

**22**  
**POWER "SLICK"**

10 front slicks

12 rear slicks

7 A specification

+ 5 B specification

Riders who participate in both Q1 and Q2:

- ✓ 1 MICHELIN Front Power Slick (of the specification the riders prefer)
- ✓ 1 MICHELIN Rear Power Slick, spec A

**13**  
**POWER RAIN :**

6 front Power Rain  
of 2 specifications

7 rear Power Rain  
of 2 specifications

In the case that any 3 of the 5 sessions, being P1, P2, Free Practice, one Qualifying session, and the Sprint (always excluding warm-up), are declared wet, one more set of rain tires will be allocated to every rider, and the allocation automatically becomes: 7 Front rain tires, and 8 Rear rain tires.

**TOTAL NUMBER  
OF TIRES PER RACE**  
**800**

# WORLD CHAMPIONSHIP

2025 FIM MotoE™

*Michelin has been the sole tire supplier for the MotoE™ World Championship since its inception in 2019. It offers a unique environment for innovation, helping the Group speed up the integration of renewable or recycled materials in its tires and expand its knowledge of electric mobility — ultimately supporting faster development of its commercial product lines.*

This year, Michelin's development teams achieved a historic milestone with **MotoE™ tires incorporating an average of 57% renewable or recycled materials** (58% front, 56% rear).

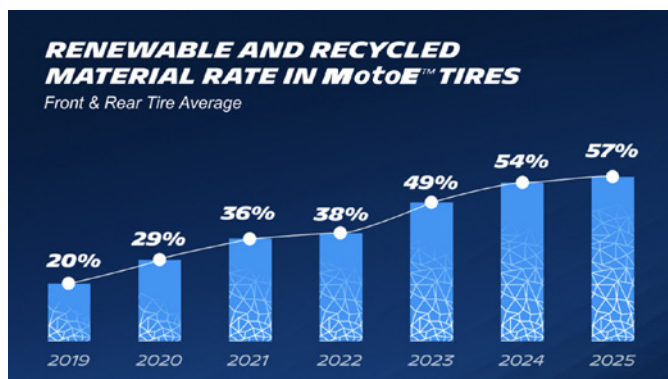

The MotoE™ tires feature a broad spectrum of **renewable and recycled materials**, including natural rubber from hevea tree sap, recycled carbon black from end-of-life tires (via pyrolysis by partner company Enviro), limonene resin from orange and lemon peels, rayon from wood cellulose, sunflower oil, recycled steel from scrap metal (via electric arc furnace by partner Global Steel Wire).

In 2025, Michelin integrates 57% renewable and recycled materials into its MotoE™ tires — while improving performance without increasing environment impact

## MotoE™ Tires with a New Look Reflecting the Group's Ambition: The All-Sustainable Tire

After the rear tire in 2024, both the front and rear tires now feature the special livery, which has been slightly revised this year to extend over the sidewalls. This unique design, called Race to Vision, is directly inspired by the VISION Concept — a symbol of Michelin's sustainable tire development model looking ahead to 2050.

**This design is reserved for tires that exceed 50% renewable and recycled content.**

# ALLOCATION

## A single front rear pairing

- ✓ **Perfect versatility:** the tires adapt to all the season's circuits
- ✓ **Performance:** increase the performance of 2024 while increasing the percentage of recycled and renewable materials
- ✓ **Grip:** offering grip from the very first corners

### ALLOCATION PER RIDER

#### 10 MICHELIN Power slicks MotoE of the same specification

5 new front tires and 5 new rear tires

#### 7 MICHELIN Power Rain MotoE of the same specification

3 front tires and 4 rear tires

- Riders who participate in both Q1 and Q2 qualifying sessions (maximum 2 riders) will be allocated one extra rear slick tire after Q2 (therefore, if taken, a maximum of 6 rear new slick tires).
- In the case that Q1 and Q2 sessions are both declared wet by the Race Director, the extra tires allocated will be rain tires.
- In the case that Q1 and Q2 sessions are declared as different weather conditions then no extra tire will be allocated.

**PIERO  
TARAMASSO**  
Michelin Motorsport  
Two-Wheel Manager

The MotoE finale will also give us another opportunity to demonstrate that, thanks to Michelin technology, performance and environmental responsibility can go hand in hand. We will continue our sustainable innovation strategy in other racing categories once this championship comes to an end.

## 2025 CALENDAR

14 races, 7 tracks

|   |                    |  |                                                        |

## RACE FORMAT

### FREE PRACTICE

Two practice sessions (15 minutes) on Friday.

### QUALIFYING PRACTICE

Q1: the slowest 10 riders from the combined results of practice.

Q2: the fastest 8 riders from the combined results of practice plus the fastest 2 riders from Q1.

### RACE

Riders will complete one sighting lap before taking their position on the grid. There is no warm up lap, once the grid preparations have finished, the red light will go out and the race starts. Tire warmers may be used on the grid. Charging of the battery on the grid is permitted.

### POINTS-SCORING SYSTEM

All races will count for the World championship.

|                            |                            |                            |
