**A MORE PRECISE
 ALLOCATION
 COMPRISING TWO
 FRONT AND TWO
 REAR OPTIONS**

Everyone at Michelin is delighted to be returning to Brno, a historic circuit that we rediscovered last year after several seasons away. The 2025 event was a special one because the track had been completely resurfaced and we had very little data on the characteristics of the new asphalt. As a precaution, we therefore brought three front and three rear specifications.

The Hard tires were mainly intended as a back-up solution in case the surface proved particularly abrasive or aggressive, but that did not happen. The asphalt was consistent, smooth and free from bumps, with a good level of grip, and the riders immediately reported an excellent feeling. Our Soft and Medium specifications were used successfully during practice, qualifying, the Sprint and the Grand Prix. On Sunday, almost every rider selected the Medium at both the front and rear, a combination that provided a very good balance of grip, stability and consistency over the 21-lap race. The level of performance was also remarkable, as the main lap records were broken.

Thanks to the information gathered, we can return this year with a more precise allocation comprising two front and two rear options. Brno nevertheless remains a complete challenge: the elevation changes are significant, the speeds are high, the braking zones are demanding and some corners place heavy loads on both tires. We must also remain attentive to the weather, as we may encounter hot conditions, cool temperatures or rain during the same weekend. We also ran on a wet track last year. Our allocation therefore enables us to cover the full range of possible conditions and provide our partners with tires that are competitive from the outset. Brno is also a very popular event with fans, particularly in Central and Eastern Europe, while many enthusiasts also travel from Italy, France, Spain and Germany. The atmosphere is always exceptional.

2026 TIRE REGULATIONS

ALLOCATION PER RACE:

22
POWER "SLICK"

10 front slicks

up to 7 A specification

+ up to 7 B specification

12 rear slicks

7 A specification

+ 5 B specification

Riders who participate in both Q1 and Q2:

- ✓ 1 MICHELIN Front Power Slick (of the specification the riders prefer)
- ✓ 1 MICHELIN Rear Power Slick, spec A

13
POWER RAIN :

6 front Power Rain of 2 specifications

7 rear Power Rain of 2 specifications

In the case that any 3 of the 5 sessions, being P1, P2, Free Practice, one Qualifying session, and the Sprint (always excluding warm-up), are declared wet, one more set of rain tires will be allocated to every rider, and the allocation automatically becomes: 7 Front rain tires, and 8 Rear rain tires.
