Our 2026 allocation is based on the solutions that proved their effectiveness here last year

Piero Taramasso
Michelin Motorsport
Two-Wheel Manager

The Red Bull Ring is a very particular circuit, with long straights, heavy braking zones and numerous acceleration phases. Its relatively low level of mechanical grip generates a lot of wheelspin and places significant demands on the rear tire.

Our 2026 allocation is based on the solutions that proved their effectiveness here last year. At the front, we have selected the symmetrical Soft and Medium. The Hard has not been retained because it was not used in 2025. At the rear, the asymmetrical Soft and Medium feature both a reinforced casing and a reinforced right shoulder. This is designed to address the greater number of right-hand corners and to keep tire temperatures under control while ensuring consistent performance. These tires are the same as those used at the Estrella Galicia 0,0 Grand Prix of Brazil.

This year, the Grand Prix takes place one month later in the season. It could therefore be slightly cooler than in 2025, when track temperatures exceeded 50°C, but we are nevertheless preparing for potentially high temperatures. The weather can change very quickly in this region: we can encounter cold conditions as well as rain, and our range will enable the riders to respond to all these situations. In the event of rain, we will provide our partners with the Michelin Power Rain range, following the same specification principles as the Michelin Power Slick tires.

2026 tire regulations

Allocation per race:

22

Power "slick"

10 front slicks

up to 7 A specification

+ up to 7 B specification

12 rear slicks

7 A specification

+ 5 B specification

Riders who participate in both Q1 and Q2:

- ✓ 1 Michelin Front Power Slick (of the specification the riders prefer)
- ✓ 1 Michelin Rear Power Slick, spec A

13

Power Rain :

6 front Power Rain
of 2 specifications

7 rear Power Rain
of 2 specifications

In the case that any 3 of the 5 sessions, being P1, P2, Free Practice, one Qualifying session, and the Sprint (always excluding warm-up), are declared wet, one more set of rain tires will be allocated to every rider, and the allocation automatically becomes: 7 Front rain tires, and 8 Rear rain tires.
